Problems Encountered:

A challenge encountered is identifying placement in a timely manner for youth who are wards of the state due to exhaustion of alternate familial placement and limited foster care placement. Also, upon exit each client and family is asked to participate in Aftercare services provided by Sanctuary. However, aftercare is not mandatory and can be refused by the client or legal guardian upon exit from the shelter. This hinders Sanctuary Case Management from actively monitoring transition progress of the client.

Future Plans:

The case management and counseling section will continue working to create and improve methods of data collection. Sanctuary will continue to foster a good working relationship with Child Protective Services to find familial or foster placement for clientele.

Performance Measures:

Social Competence	Case Manager and shelter staff have reported
	observed improvement in social interactions and,
	defined as maintaining positive relationships with
	others 14 of 15 (93%) clients served within this
	reporting period. Observations are based on
	demeanor and nature of client interactions as
	documented using daily client progress reports.
Family Relationships	Noted improvements in family relationships,
	defined as willingness to address family issues, and
	improved styles of communication, has been
	reported by case manager 12 out of 14 (86%) based
	on parental/legal guardian verbal feedback to the
	Case Manager. Most of the clients during this
	reporting period were wards of the state. The
	number provided above only includes clients who
	were able to work towards reunification with a
	family member or foster parent. It is challenging to

[" " " " " " " " " " " " " " " " " " "	
	work on a family relationship when a family
	member or foster parent is not identified. More
	than 30 days are needed to work on fostering a
	positive relationship when working with CPS
	clients and their family members or foster parent.
Families Satisfied with Program	A total of 8 out of 8 family members completed
	Sanctuary's Satisfaction Survey during this
	reporting period. Of the total number of family
	members who have completed the satisfaction
	survey, 87.5% have reported to be satisfied with all
	aspects of the program including a 75% of families
	stating that they will access Sanctuary services for
	future familial issues. Areas surveyed include:
	1) Noted quality in family relationships
	2) Future access of services
	3) Accessibility and response time
	4) Overall rating of services
	5) Recommending services to others
Client Satisfaction	Of all clients who have completed satisfaction
	survey, 64% have reported an increased quality in
	familial relationships. A total of 93% have stated
	that they had good or very good access to services
	with prompt response time. A total of 92% have
	rated overall services as good or very good and
	73% of clients surveyed have indicated that they
	would likely or very likely refer others to Sanctuary
	for services needed.
